PRESENTS:

ERIC JOSEPH MONTGOMERY

SINGER. SONGWRITER. MULTI- INSTRUMENTALIST

They call him a "Renaissance Man." In the vein of Moby, Trent Rezner, Quincy Jones, Phil Collins, Steve Jordan, George Winston - Eric Montgomery does it all - creating, performing, and producing unforgettable music and entertainment experiences.

In a full band setting, Eric is the rhythmic glue and "the voice," with a warm, solicitous tone. Eric performs regularly both as a piano/vocal soloist, and as the drummer with full bands for corporate events, festivals, private parties, weddings, and concerts. He is most recently noted as the drummer and a lead/backing vocalist for Maurice The Fish, ranked one of the top dance and events bands in America three years in a row.

Currently, he is performing/recording with Michele Drey and her country band Branded. Michele's father, Michael Jarret, wrote hits songs for Elvis Presley and was the first official Elvis Presley Tribute Band. Her first stage experience as a teenager was on tour as his backing vocalist across Europe.

Known for simultaneously drumming, playing keyboards, and singing, he is applauded as one of the most innovative musicians today. But he's no one-man-band; in projects like BooJu, Montgomery Park, and Maurice The Fish, he pulls off his multi- instrumental entertainment effortlessly with great rhythm, melody, imagination, and evolved showmanship that leaves the audience captivated.

The Maurice The Fish Record Label showcases his abilities throughout the West beginning with his solo piano works, keyboard/drum/vocal performances, and full band arrangements of some of his eclectically vibrant numbers.

As a songwriter and recording artist, Eric Montgomery is rare in his field. His works span a myriad of genres from rock/pop and techno to soulful piano - and even musicals. He isn't defined by conformity to labels or styles, which makes him an entertainer that brings freewheeling eclecticism to even the most fickle of fans.

His newest recording is *Welcome River. A father's soothing piano meditation's to calm and bond mother and child through pregnancy, birthing, sleeping, and everyday life* - unrehearsed solo piano pieces wedded together with a passion that sounds both meditational and inspirational.
